EDUCATION

- **Dayananda Sagar College Of Engineering** Bengaluru, India
Bachelor of Engineering-Computer Science And Design; 2022 - 2026
- **Jusco School Kadma** Jamshedpur, India
Intermediate (CBSE): Pure Science with Computer Science - 85% 2021
- **Jusco School Kadma** Jamshedpur, India
Matriculation (CBSE) - 89% 2019

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Python, C, Java

Frameworks And Libraries: NodeJS, ExpressJS, React, Redux, NextJs, TailWind

Databases And Tools: MongoDB, SQL, Git, Github, Figma, Webflow

EXPERIENCE

- **Volunteer Lead@ETHIndia 2023** December 2023
Lead and Coordinator
 - **Supervised** volunteers and **partnered** with **Devfolio** to **orchestrate** the successful execution of **ETHIndia**, the **world's largest Web3 Hackathon**.
- **Volunteer@Web3Carnival** December 2023
Senior Volunteer
 - **Engaged** as a volunteer and **partnered** with **Three Way Studios** to **facilitate Web3 Carnival**, a **week-long Web3-focused event**.

PROJECTS

- **CarbonChain**
 - Developed a platform that integrates social media and blockchain technology to offer a **transparent** and **engaging carbon credit system**.
 - Users **earn carbon credits** by **sharing** their sustainability efforts online, which are then **verified and tracked** using **advanced sentiment analysis** and blockchain for **transparency** and **accountability**.
- **Visionary**
 - Implemented blockchain technology into everyday business systems to enhance **customer** and **corporate experiences**.
 - By using smart contracts, Visionary takes away the need for **intermediaries**. As the contract is stored on blockchain, the details are **public & immutable** by third parties.
- **resuME**
 - Created an AI-powered resume builder that allows job seekers to **generate** professional, ATS-friendly resumes in minutes.
 - resuME uses cutting-edge technology to **analyze and optimize** resumes for increased **visibility and success with applicant tracking systems**.

ACHIEVEMENTS

- Finalist, Hack-o-Rama Hackathon - January 2024
- Finalist, Aventus 2.0 Hackathon - May, 2024
- Finalist, BuildTogether AI Hackathon - June 2024
